

# HOW DO YOU KNOW IF YOU NEED A **HIGH-PERFORMANCE DOOR?**

## HIGH-DEMAND INFLUXES

You have peak times of operation or rush period, with high volume traffic.

## NEED FOR SPEED

You need or would like the door to open much faster than standard operation.

## COST CONCERNS

You are concerned about cost of commercial door maintenance, including spring replacements and service call fees.

## PRODUCTIVITY IMPACT

With slow moving doors, this costs companies to lose time and money. To increase productivity, you would like the door to open and close quickly for more efficiency.

## ENERGY EFFICIENCY

You have a climate-controlled facility and are concerned with keeping the air inside the building.

## TRAFFIC MANAGEMENT

You have high volume traffic such as commercial vehicles, personal vehicles, and forklifts.

**YOU NEED A  
HIGH-PERFORMANCE DOOR.**
